| <b>4. Results and Discussion</b>           |              |             |
| 4.1. Parameters Chosen .....               | 23           |             |
| 4.2. Isochore segment statistics .....     | 24           |             |
| 4.3. Isochore distribution pattern .....   | 26           |             |
| 4.4. Gene- Isochore map Statistics .....   | 27           |             |
| 4.3. Gene distribution pattern .....       | 28           |             |
| 4.4. Average gene count .....              | 28           |             |
| 4.5. Average gene density.....             | 29           |             |
| 4.6. Result Comparison .....               | 30           |             |
| <b>5. Conclusion and Future work</b> ..... | 31           |             |
| <b>6. Bibliography</b> .....               | 32           |             |

| 6.     | GCCT Image for Chr1 .....   | 14   |
| 7.     | GCCT Color-pixel Index for Different Value of G+C content .....           | 15   |
| 8.     | DNA Coverage by Isochore family .....                                     | 24   |
| 9.     | Isochore distribution, LC =300Kbp .....                                   | 25   |
| 10.    | Isochore distribution, LC =100Kbp .....                                   | 26   |
| 11.    | Gene distribution on isochore along chromosome 22 .....                   | 27   |
| 12.    | Average Gene Count .....  | 28   |
| 13.    | Average Gene Density .....  | 29   |

# List of Tables

| Table | Title   | Page |
|-------|---|------|
| 1.    | No of base pair for different human chromosome sequence ..... | 2    |
| 2.    | G+C content of five human isochore families .....             | 6    |
| 3.    | DNA Coverage for Different Isochore cutoff length .....       | 23   |
| 4.    | Family wise Analysis Isochore, LC = 100Kbp .....              | 23   |
| 5.    | Illustration of Isochore Family wise Gene Distribution .....  | 28   |
| 6.    | A Comparative Isochore Segment Statistics .....               | 30   |
