To Whom It May Concern

May 24, 2010

I am pleased to write about Parijat Baruah's performance as an intern with us from January 2010 to May 2010.

Parijat picked up the Drupal and LAMP technology stack fast. She not only completed her internship project but also contributed to our live projects for our global customers. I am sure this exposure has helped her appreciate the benefits of information technology and also relate and apply what she learnt in college to the real world.

I found her a good team player, technically savvy, and accountable. I wish Parijat all the best in her future endeavors.

Sincerely,
