

TABLE OF CONTENTS

1. Introduction and Overview.....	1-6
1.1 Introduction.....	
1.2 Service Oriented Architecture (SOA).....	
1.3 Web Services.....	
1.4 Geospatial Web Services.....	
1.5 Open Geospatial Consortium (OGC).....	
1.6 OGC Web service model.....	
2. Initial System Study.....	7-8
2.1 Problem Definition.....	
2.2 Objective.....	
2.3 Scope.....	
3. System Design.....	9-16
3.1 System Architecture.....	
3.2 OGC Web Map Server.....	
3.3 OGC Web Map Client.....	
3.4 OGC Web Feature Server.....	
3.5 OGC Web Feature Client.....	
3.6 OGC Web Image Classification Server.....	
3.7 OGC Web Image Classification Client.....	
4. System Implementation.....	17-26
4.1 Implementation Approach.....	
4.2 Web Map Server implementation.....	
4.3 Web Feature Server Implementation.....	
4.4 Web Image Classification Server Implementation.....	
4.5 About our Data.....	

5. Tools and Platform used.....	27-31
5.1 J2EE.....	
5.2 Geotools.....	
5.3 Techniques of designing the web service in J2EE.....	
5.3.1 JAX-WS.....	
5.4Creating the Web Service.....	
5.5 Consuming the Web Service.....	
6. Screenshot.....	32-40
7. Limitation.....	41
8. Future Scope of the Project.....	41
9. Conclusion.....	42
10. Appendix.....	43
11. References.....	44
