ACKNOWLEDGEMENT

Preparing a project on technical subject can hardly be a solitary job. There are several people who helped us, directly or indirectly in the successful completion of this project.

We offer our heartfelt thanks to our respected VC **Dr. Mihir Kanti Chaudhuri** for providing us the best facilities in our university in all respects. We would also like to thank our HOD **Mr. Shyamanta M. Hazarika** for his valuable time and support.

It would not be fair on our part if we do not appreciate the valuable guidance of **Dr. Bhogeswar Borah** whose motivation and inspiration has brought this project to its present form.

We are also grateful to our **friends** who were always around us to help us in all possible ways in the preparation of the project.

It should not be taken as an exaggeration if we claim to say that choosing **"Computer Application"** as the subject of our **Master Degree** has been one of the best decisions we ever made.
