

# CONTENTS

---

## Chapter 1

<b>Introduction</b> .....	1
1.1 Motivation of the work. ....	1
1.2 Work done .....	2
1.3 Importance of the work .....	2
1.4 Organization of the Report. ....	3

## Chapter 2

<b>Background and Preliminaries</b> .....	4
2.1 I-Tree for storing Interval frequency .....	4
2.2 Pre-Order Traversal Algorithm .....	7

## Chapter 3

<b>Basic Concepts and Properties</b> .....	11
3.1 Preliminaries .....	11
3.2 Some properties of Maximal Frequent and Minimal Infrequent Intervals .....	12

## Chapter 4

<b>Minimal Infrequent Interval Algorithm</b> .....	17
4.1 Minimal Infrequent Interval Algorithm (MII) .....	17
4.2 Complexity analysis of the algorithm (MII) .....	18

## Chapter 5

<b>Implementation Details</b> .....	20
5.1 Description of Various modules .....	20

## Chapter 6

<b>Experimental Results</b>	
6.1 Environment Used .....	25

6.2 Dataset Used .....	25
6.3 Comparison of algorithms in [1] and [2] .....	25
6.4 Result of MII .....	29

## **Chapter 7**

<b>Conclusion and Future work .....</b>	<b>34</b>
---	-----------

## **Chapter 8**

<b>References .....</b>	<b>35</b>
