ACKNOWLEDGEMENTS

It's my great pleasure to show due regards to persons involved in bringing out successful completion of the dissertation work entitled "*Modeling Diachronic and Synchronic Changes in Assamese*" undertaken by me as a prerequisite towards partial fulfillment for the award of Master of Technology in Information Technology at Tezpur University.

I would like to convey my heartiest gratitude to my project guide Dr. Smriti Kumar Sinha, Professor, Department of Computer Science & Engineering, Tezpur University, who has been the guiding force behind this project work. I am greatly indebted to him for his constant encouragement, invaluable suggestions and support from an early stage of this research and providing me extraordinary guidance throughout the work. I consider it as my good fortune and proud to record that I had the opportunity to work under such a wonderful person.

I am highly grateful to Prof Utpal Sarma and Mrs Sanghamitra Nath, Department of Computer Science & Engineering, Tezpur University; for their constant support in providing necessary facilities during the course of the work. I am also very much thankful to other department faculty members.

At last but not least, I convey my special thanks to my parents, my brother, my batch mates, seniors and those who are directly or indirectly involved in this work for their moral support and inspiration throughout the duration of this project.
