
TABLE OF CONTENTS:

Page Number

1. Abstract.....	1
2. Introduction.....	3
3. Types of XSS attack	
3.1 Reflected.....	5
3.2 Stored.....	7
3.3 DOM-Based XSS.....	8
4. Encoding and Filtering-based detection practice	
4.1 Encoding.....	10
4.1.1 Input Encoding.....	10
4.1.2 Output Encoding.....	11
4.2 Content-Filtering/Input validation.....	12
5. Blacklist And Whitelist-based detection practice.....	16
6. Server-side script verification –based detection practice.....	18
7. Problem Selection.....	21
7.1 Client side prevention.....	22
8. Threat model	
8.1 attacker abilities.....	24
8.2 vulnerability coverage.....	24
8.3 Attacker Goals.....	24
8.4 Implementation rule.....	25
9. Limitations	

9.1 Limitations of positive logic approach.....	25
9.2 Limitations of negative logic approach.....	25
10. Conclusion.....	27
11. Bibliography.....	28
