

CONTENTS

CHAPTER 1: PROJECT TITLE

CHAPTER 2: INTRODUCTION

- 2.1 Web Application and its popularity in present day**
- 2.2 Security Threats in Web Application access**
- 2.3 How CSRF conducts by the attackers**
- 2.4 How defends by the present method**
- 2.5 Why necessary for an effective solution to protect from CSRF**

CHAPTER 3: WEB APPLICATIONS AND SECURITY THREATS

CHAPTER 4: RELATED WORK

CHAPTER 5: OBSERVATION AND PROBLEM SELECTION

- 5.1 Observation**
- 5.2 Problem Selection**

CHAPTER 6: PROBLEM DEFINITION

CHAPTER 7: PROPOSED DEFINITION METHOD

- 7.1 Profile Generation**
- 7.2 Threshold Computing During Learning Phase**
- 7.3 Run –Time Searching Using Binary Search**

CHAPTER 8: EXPERIMENTAL RESULTS

- 8.1 Test-bed**
- 8.2 Data Set Preparation**
- 8.3 Detection performance**

CHAPTER 9: CONCLUSION AND FUTURE SCOPE
