CERTIFICATE

This is to certify that the dissertation work entitled “**Study on evolution of *Clostridium* species using distance matrix**” submitted to the **Department of Computer science**, Tezpur Central University, Tezpur, towards partial fulfillment of the requirement for the award of the **Degree of Master of Computer Application** has been done by **Mr. Mayank Gaur**, during the period of 12th Jan to 21st May 2014 at the **CSIR-Institute of Genomic and Integrative Biology (IGIB)**, Delhi University Campus, Mall Road, Delhi-110007, under the supervision of Dr. V. C Kalia and myself. To the best of our knowledge, the present dissertation is the result of his original work and contribution and no part of the dissertation has ever been submitted for any other purpose at any University/Institute. He has actively participated in different studies carried out in the laboratory. He has good aptitude for research and I wish him success in all his future endeavors.

ACKNOWLEDGEMENT

With heartfelt gratitude, I would like to thank **Dr Malabika Datta**, Principal Scientist, CSIR-IGIB, and **Dr. Vipin C. Kalia**, Chief Scientist, Microbial Biotechnology and Genomics, **CSIR- Institute of Genomics and Integrative Biology**, Delhi- 110007, without him this work would not have been possible. I shall forever cherish the period during which I have worked under him. His vast knowledge, experience and academic excellence have indeed been a great source of inspiration. I wish to place on record with gratitude the co-operation of the staff members.

I would also thank Dr. Rajesh S. Gokhale, Director, **CSIR-Institute of Genomics and Integrative Biology**, Delhi- 110007. I will remain immensely grateful to him for giving me an opportunity to get exposure and to use the facilities of the Institute.

I would also thank Dr. Shyamanta M Hazarika, HOD, **Tezpur Central University**, Tezpur, Assam-784028, for their constant support and encouragement.

At last but not least I cannot forget technical suggestions and guidance given by my class fellows and friends in different parts of the world and lab mates. They were really a source of inspiration for me and their participation in technical discussion in my thesis work helped me to think beyond some certain boundaries. It would be fair to say that without their help, it would not be possible for me to finish this work.
