

# Contents

<b>1</b>	<b>Introduction</b>	<b>4</b>
1.1	Problem Statement . . . . .	4
1.2	Objective of the Dissertation . . . . .	5
1.3	Motivation . . . . .	5
1.4	Report Organization . . . . .	6
<b>2</b>	<b>Different Evaluation Measures</b>	<b>7</b>
2.1	Need of Evaluation Measures . . . . .	7
2.2	Taxonomy of the Objective Measures . . . . .	8
2.3	Brief Description of the Taxonomy and the Evaluation Measures . . . . .	9
2.3.1	Frequency Based . . . . .	9
2.3.2	Statistical Based . . . . .	11
2.3.3	Hybrid . . . . .	16
2.4	Comparison Among The Evaluation Measures . . . . .	16
<b>3</b>	<b>Proposed Objective Measures</b>	<b>18</b>
3.1	Problem With The Measure . . . . .	18
3.2	Proposed Objective Measures . . . . .	19
3.2.1	First measure . . . . .	19
3.2.2	Second Measure . . . . .	20
3.2.3	Checking The Validity of The Measure . . . . .	20
3.2.4	Comparison With Other Measures . . . . .	21
<b>4</b>	<b>Multi-objective Optimization and Non-dominance</b>	<b>22</b>
4.1	Multi-objective Optimization . . . . .	22
4.2	Pareto Optimality . . . . .	23
<b>5</b>	<b>Work Done and Experimental Analysis</b>	<b>24</b>
5.1	Work Done . . . . .	24
5.1.1	Survey . . . . .	24
5.1.2	Implementation . . . . .	24
5.2	Experimental Analysis . . . . .	25
5.3	Testing on Different Datasets . . . . .	25
<b>6</b>	<b>Discussion and Conclusion</b>	<b>29</b>

# List of Tables

2.1	Comparison Among The Evaluation Measures . . . . .	17
3.1	Probability Factors Affecting Different Measures . . . . .	21
5.1	No.of Rules generated for the dataset and for the first three ranks for Monk1 Dataset . . . . .	25
5.2	No.of Rules generated for the dataset and for the first three ranks for synthetic dataset.1 . . . . .	26
5.3	No.of Rules generated for the dataset and for the first three ranks for synthetic dataset 2 . . . . .	27

# List of Figures

2.1	Taxonomy of the objective measures . . . . .	9
5.1	Level No. vs No. of Rules generated for Monk1 Dataset . . . . .	26
5.2	Level No. vs No. of Rules generated for synthetic dataset1 . . . . .	27
5.3	Level No. vs No. of Rules generated for synthetic dataset 2 . . . . .	28
