Acknowledgement

We would like to thank our supervisor Dr. Shyamanta M. Hazarika for his continued guidance, suggestions, encouragement and unwavering support throughout the course of this project. We are extremely grateful for the research methodologies endowed by him upon us.

We would also like to thank Dr. Arindam Karmakar for the short discussions and suggestions that proved to be valuable for the completion of this project.

There are several people who extended their help during the course of this project. In particular, we would like to convey our gratitude towards Bikram Kachari along with the research group at the Cognitive Robotics Lab, Tezpur University for their generous help and genuine interest in the project.

We would like to express our sincere gratitude to our parents for their love, support and belief in us. Finally we extend our thanks to all those who are directly or indirectly involved in this project.
