

## ACKNOWLEDGEMENTS

*I feel extremely privileged to express my deep sense of reverence and indebtedness to my supervisor Prof. S.C. Deġa, Department of Food Engineering & Technology, Tezpur University for his constant assistance, adept and perspicacious guidance, encouragement, authentic suggestion with constructive critic's time throughout the course of investigation and preparation of manuscript.*

*I express my deepest gratitude and veneration to esteemed members of my Doctoral Committee Dr. B. Srivastava, Department of Food Engineering & Technology and Prof. S. K. Ray Department of Molecular Biology & Biotechnology, Tezpur University for their valuable suggestion and encouragement at various stage of the investigation and thesis writing.*

*Sincere regards to Prof. M.M. Sarma, Vice Chancellor, Tezpur University, Prof. C.L. Mahanta, Dean, School of Engineering and Dr. B. Srivastava, Head, Department of Food Engineering & Technology for providing necessary facilities to carry out the research work,*

*With a deep sense of gratitude and great pleasure, I acknowledge the whole hearted cooperation extended by Mr. A.B. Das, Department of Food Engineering & Technology, Tezpur University, sparing his valuable time, technical support and constant suggestion right from the inception of the research topic particularly in the foam mat drying, extrusion processing, optimization of process parameters, rheology, fuzzy logic and moisture sorption isotherm study.*

*Sincere regards to Dr. B. D. Green, Institute for Global Food Security, School of Biological Sciences, Queen's University Belfast, Northern Ireland, U.K, for giving me opportunity to explore in the field of on Molecular Nutrition area. I also deeply thankful to Dr. Danielle Calderwood for her constant guidance during my investigation. Also thankful to Manus Carey and Norah Althobaiti for their suggestion during the research work,*

*I wish to express my deep sense of gratitude to my Departmental Research Committee and research scholars for their valuable suggestions and encouragement.*

*I also express thanks to Newton-Bhabha PhD Placements Programme 2015-16 with collaboration with Department of Biotechnology, New Delhi and SAIC Tezpur University, Assam India.*

*Thanks are also due to staff of Department of Food Engineering & Technology for their assistance and cooperation from time to time throughout the period of research.*

*I would also like to acknowledge Mrs. Nijara Deġa, her love and motherly caring attitude toward me is boundless during my research period.*

*I am indebted to my friends circle (Ms. Trisha Wangno, Ms. Mridushmita Buragohain, Ms. Arbina Phonglo, Ms. Milo Yasung, Ms. Dipshika Kalita, Ms Pritibhi P. Gogoi, Mr. Ritesh*

*Watharkar) whose effort of holding my shattered pieces emotionally when the tasks seemed arduous and insurmountable.*

*Thanks are also due to my family member for their constant support, encouragement and care taken throughout my work,*

*I also thank profusely to my childhood penpal-cum very special person Mr. Rinchin T. Thongchi for his undying unconditional love, support and encouragement. Words cannot be expressed how grateful I am to him for all of the sacrifices that he have made on my behalf.*

*Thanks also due to the funding body UGC-Rajiv Gandhi National Fellowship (RNGF 2015-16) for supporting my research.*

*Special thanks to my labmates Dr. Prerna Khawas, Dr. Jayabratha Saha, Dr. A. J. Das, Mr. M. J. Das, Ms. S. Khurshida, Ms. Yesmin Ara Begum, Ms. K.C.S. Mangang, Ms. Maibam baby Devi and Ms. Sangita Muchahary.*

*Lastly, I would like to thank my Almighty God 'Donyi –Polo for blessing and giving endless strength to complete this journey successfully.*

*(Duyi Samyor)*

*Tezpur*

*November, 2017*
