

List of Tables

| | | |
|---------|--|----|
| 1.1 | Shapes of Assamese Characters | 4 |
| 2.1. | Drection Relations | 30 |
| 2.2 | Codon Joins | 32 |
| 2.3 | Types of Qualitative Curvatures | 34 |
| 2.4 | The six tokens of BaseTok | 40 |
| 2.5 | Curve state combinations | 41 |
| 3.1 | Similar Characters from Different Classes | 60 |
| 4.1 | Individual recognition rates of online handwritten Assamese numerals | 76 |
| 4.2 | Average recognition rates of online handwritten Assamese numerals | 76 |
| 4.3 (a) | Individual recognition rates of the online handwritten Assamese basic alphabetic characters for feature set FS:1 | 80 |
| 4.3 (b) | Individual recognition rates of the online handwritten Assamese basic alphabetic characters for feature set FS:2 | 81 |
| 4.3 (c) | Individual recognition rates of the online handwritten Assamese basic alphabetic characters for feature set FS:3 | 82 |
| 4.4 | Average recognition rates of basic alphabetic characters | 83 |
| 4.5(a) | Individual recognition rates of online handwritten Assamese conjunct consonants (<i>Juktakkhors</i>) for feature set FS:1 using Linear Kernel of SVM | 87 |
| 4.5(b) | Individual recognition rates of online handwritten Assamese conjunct consonants (<i>Juktakkhors</i>) for feature set FS:1 using Polynomial Kernel of SVM | 88 |
| 4.5(c) | Individual recognition rates of online handwritten Assamese conjunct consonants (<i>Juktakkhors</i>) for feature set FS:1 using RBF Kernel of SVM | 89 |

| | | |
|--------|---|-----|
| 4.5(d) | Individual recognition rates of online handwritten Assamese conjunct consonants (<i>Juktakkhors</i>) for feature set FS:2 using Linear Kernel of SVM | 90 |
| 4.5(e) | Individual recognition rates of online handwritten Assamese conjunct consonants (<i>Juktakkhors</i>) for feature set FS:2 using Polynomial Kernel of SVM | 91 |
| 4.5(f) | Individual recognition rates of online handwritten Assamese conjunct consonants (<i>Juktakkhors</i>) for feature set FS:2 using RBF Kernel of SVM | 92 |
| 4.5(g) | Individual recognition rates of online handwritten Assamese conjunct consonants (<i>Juktakkhors</i>) for feature set FS:3 using Linear Kernel of SVM | 93 |
| 4.5(h) | Individual recognition rates of online handwritten Assamese conjunct consonants (<i>Juktakkhors</i>) for feature set FS:3 using Polynomial Kernel of SVM | 94 |
| 4.5(i) | Individual recognition rates of online handwritten Assamese conjunct consonants (<i>Juktakkhors</i>) for feature set FS:3 using RBF Kernel of SVM | 95 |
| 4.6 | Average recognition rates of <i>Juktakkhors</i> | 96 |
| 4.7 | Individual recognition rates of all the 183 online handwritten Assamese characters | 99 |
| 4.8 | Average recognition rates of all the 183 online handwritten Assamese characters based on feature set FS:3 | 105 |
| 5.1 | Qualitative Orientation angle range and symbols | 110 |
| 5.2 | Characters with corresponding stroke sequences | 115 |
| 5.3 | Examples of multiple stroke sequences of the same character | 115 |
| 5.4 | Curvature Components with corresponding symbols | 117 |
| 5.5 | Stroke sequence and signature | 118 |
| 6.1 | Average recognition rates of numerals (using qualitative feature vectors) | 124 |
| 6.2 | Average recognition rates of basic alphabetic characters (using qualitative feature vectors) | 127 |
| 6.3 | Average recognition rates of <i>Juktakkhors</i> (using qualitative feature vectors) | 130 |
| 6.4 | Overall recognition rates of online handwritten Assamese combined set of numerals, basic alphabetic characters and <i>Juktakkhors</i> (using qualitative feature vectors) | 132 |
