ABSTRACT	i-xiv
DECLARATION	xv
CERTIFICATE OF THE SUPERVISOR	xvi
CERTIFICATE OF THE EXAMINER	xvii
ACKNOWLEDGEMENTS	xviii-xix
ABBREVIATIONS/SYMBOLS USED	xx-xxi
Chapter 1A General review on target-oriented ionic liquid based systems in catalysis	1A.1-1A.21
1A.1. Introduction	
1A.2. General classification of ionic liquids (ILs)	
1A.3. Characteristics of target-oriented ionic liquid based systems	
1A.4. Types of acidic/basic functionalized ionic liquid systems used for catalytic reactions	
Chapter 1B Literature on halometallate ionic salts and ionic liquid catalyzed synthesis of bis(indolyl)methanes	1B.1-1B.33
1B.1. Halometallate ionic liquids	
1B.2. Acidity of chlorometallate ionic liquid systems	
1B.3. Stability of chlorometallate ionic liquids in water	
1B.4. Sulfonic acid functionalized chlorometallate ionic liquid systems	
1B.5. Importance of <i>bis</i> (indolyl)methane (BIM) derivatives	
1B.6. Ionic liquid mediated/catalyzed synthesis of <i>bis</i> (indolyl)methanes (BIMs)	

Chapter 1C	Design of Brönsted-Lewis acidic solid catalytic systems of 3-methyl-1-sulfonic acid imidazolium transition metal chlorides and evaluation of their catalytic performances in preparation of bis(indolyl)methanes	1C.1-1C.21
	1C.1. Results and discussion	
	1C.2. Conclusion	
	1C.3. Experimental	
	1C.4. Spectral data of the ionic salts and the <i>bis</i> (indolyl)methane derivatives	
Chapter 2A	Review on zeolite supported ionic liquids in organic synthesis with special emphasis on preparation of 3, 4-dihydropyrimidinone derivatives via Biginelli reaction	2A.1-2A.33
	2A.1. Zeolites: Composition and Structure	
	2A.2. Classification of zeolites	
	2A.3. Characteristic properties of zeolites	
	2A.4. Structure of Y Zeolite	
	2A.5. Dealumination of Y zeolite	
	2A.6. Use of zeolite as support material for immobilization of ionic liquids	
	2A.7. Biginelli reaction: An introductory note	
	2A.8. Biological aspects of Biginelli 3, 4-dihydropyrimidinone (DHPM) derivatives	
	2A.9. Use of heterogenized ionic liquid catalysts for synthesis of 3,4-dihydropyrimidinone derivatives via Biginelli reaction	
Chapter 2B	A study on structural changes of 1, 3-disulfoimidazolium trifluoroacetate ionic liquid/NaY zeolite composites and their catalytic uses for three component synthesis of 3, 4-dihydropyrimidinones	2B.1-2B.26

	2B.1. Results and discussion	
	2B.2. Conclusion	
	2B.3. Experimental Section	
	2B.4. Spectral data of the 3, 4-dihydropyrimidinone derivatives	
Chapter 3A	Literature on strategies for conversion of 3, 4-dihydropyrimidinones to pyrimidines	3A.1-3A.12
	3A.1. Pyrimidines and their synthesis from Biginelli 3, 4-dihydropyrimidin-2(1H)-ones	
Chapter 3B	Development of heterogenized hybrid catalyst of 1-sulfonic acid-3-methyl imidazolium ferric chloride over NaY zeolite and their utilization in one-pot synthesis of 2-amino-4-arylpyrimidine derivatives: A viable approach	3B.1-3B.31
	3B.1. Results and discussion	
	3B.2. Conclusion	
	3B.3. Experimental	
	3B.4. Spectral data of 2-amino pyrimidine derivatives	
Chapter 4	Investigation of complex anionic speciation and thermal stability of transition metal chlorides of disulfo-diisopropylammonium based acidic ionic salts and assessment of their catalytic activity in multistep one-pot synthesis of (2E)-ethyl 2-(arylideneamino)-6-styrylpyrimidines	4.1-4.30
	4.1. Importance of styrylpyrimidine derivatives and reported methods of synthesis	
	4.2. Results and discussion	
	4.3. Conclusion	
	4.4. Experimental section	
	4.5. Spectral data of ILs and styrylpyrimidine derivatives	

Chapter 5A	Review on poly(ethyleneglycol) linked dicationic ILs and formation of 5-hydroxymethylfurfural using ionic liquids	5A.1-5A.46
	5A.1. Geminal dicationic ionic liquids	
	5A.2. Poly(ethylene glycol)-Linked Dicationic Imidazolium and Ammonium Ionic Liquids and their uses as Solvent/Catalyst systems	
	5A.3. Review of ionic liquid mediated/ catalyzed conversion of biomass to HMF	
Chapter 5B	Investigation of PEG-6000 bridged -N-SO₃H functionalized geminal dicationic ionic liquids for catalytic conversion of fructose to 5-hydroxymethylfurfural	5B.1-5B.22
	5B.1. Results and discussion	
	5B.2. Conclusion	
	5B.3. Experimental section	
	5B.4. Spectral data of DILs	
Chapter 6A	Literature on imidazolium/pyridinium based basic ionic liquids and their uses in organic reactions	6A.1-6A.44
	6A.1. Multifunctionalized basic ionic liquids	
	6A.2. Imidazolium and pyridinium based basic ionic liquids and their uses in organic synthesis including Knoevenagel condensation	
	6A.3. Base catalyzed Knoevenagel condensation reaction	
Chapter 6B	Synthesis of triethylamine bridged basic tricationic ionic liquids (ILs) and evaluation of their catalytic efficiencies towards synthesis of functionalized alkenes	6B.1-6B.24
	6B.1. Results and discussion	
	6B.2. Conclusion	

6B.3. Experimental section

6B.4. Spectral data

Chapter 7 Summary and future scopes of the present work 7.1-7.5

7.1. Summary of the present work

7.2. Future scopes of the present work

Annexure Selected NMR spectra of ILs and synthesized products S.1-S.34
