

## ACKNOWLEDGEMENT

At the very outset, I take pleasure to express earnest regard and sincere gratitude to my research guide, advisor and mentor Prof. Nashreen S. Islam, Department of Chemical Sciences, Tezpur University, for her immaculate guidance, excellent supervision, constant encouragement and providing requisite facilities to carry on my research. Your prolonged research experience and scientific temperament provided me with a sound atmosphere to continue my research work on such an exciting topic of inorganic chemistry.

I am indebted to the honourable and eminent Prof. M. K. Chaudhuri, Ex-Vice-Chancellor, Tezpur University for his constructive suggestions and rock solid institute building attitude, by dint of which every research scholar can avail state of the art, laboratory facilities and a scientific work environment in the institute premise itself. I am also thankful to distinguished Prof. M. M. Sarma, Acting-Vice-Chancellor, Tezpur University for his support and valuable contributions.

With much appreciation, I would like to acknowledge the crucial role played by the authorities of Tezpur University and entire Department of Chemical Sciences, Tezpur University who gave permission to avail all kinds of administrative and technical facilities for my research work. Without your support, my venture could not have been finished.

I express my heartiest thanks and gratitude to Prof. A. J. Thakur, Head, Department of Chemical Sciences, Tezpur University along with all the faculty members of the Department of Chemical Sciences for their precious advice and help during the course of my research work.

I deeply acknowledge Prof. S. K. Dolui and Prof. N. Karak, members of my doctoral research committee for their constant support, suggestions and inspirations during my entire research period.

I am thankful to Dr. K. K. Bania, Department of Chemical Sciences, Tezpur University for his help with my theoretical work and Dr. B. Sarma, Department of Chemical Sciences, Tezpur University for his help in solving crystal structure. It gives me immense pleasure to thank Dr. Pakiza Begum for her help in theoretical calculation and Dr. Bhaskar Jyoti Gogoi for his help in cytotoxicity study.

I cordially thank Dr. Biren Gohain, Nipu Dutta, Raju Kumar Borah, Sankur Phukan, Biraj Borah, Manoranjan Sarma, Ratan Baruah, P. Mudoi, Prakash Kurmi, Bhaskar Jyoti Kalita, Dr. Dhruvajyoti Talukdar and Anil Hazarika for their assistance and

kind co-operation throughout my research period. I also acknowledge Babita Das and Bubul Das for their help. I take this opportunity to express my gratitude to all the teachers throughout my journey whose lessons shaped me to reach this point.

Joining Tezpur University as a Scholar was the best part of all. I acknowledge Tezpur University for the institutional Fellowship, Dept. of Science & Technology, New Delhi, University Grants Commission-Basic Science Research Fellowship and Council of Scientific & Industrial Research (CSIR) for financial aid in the form of Junior and Senior Research Fellowship (JRF & SRF) which buttressed me to perform my work comfortably.

Special thanks go to former lab mates Dr. Jeena Jyoti Baruah and Dr. Siva Prasad Das as well as present lab mates Gangutri Saikia, Kabirun Ahmed and Mitu Sharma for their manifold help and active co-operation throughout my research period.

My life at Tezpur University would not have been so productive, enjoyable and memorable without my ever inquisitive, energetic and active friends that have become a very important part of my life. I take this opportunity to sincerely appreciate and reciprocate the warmest and heartfelt best wishes with all my friends especially Momina Baa, Kakali, Dipsikha, Rupsikha, Pangkita, Pinky, Runjun, Mamon, Arup, Basanta, Monu, Suchi and all other research scholars. My sincere thanks go to my childhood friends Nitali, Chandrika and Jyotika along with my Navodayan friends for their help in all possible aspects.

Last but not the least, I take this opportunity to thank my parents whose hope and never ending belief in me always helped me to rekindle my confidence. In my happiness and distress, strength and weaknesses, you were always there for me. Both of you inspire me to do what would have been otherwise impossible. In this moment of joy and contentment, I take great pleasure to remember my younger sister, Lakhya Hira and younger brothers, Pulak and Suraj whose company always instigates the passion to do the incredible. In addition, I would like to thank all my relatives for their valuable advices and unconditional support.

I thank God, the Almighty, for giving me the strength to complete what was started five years back. Thank you, God. Thank you, everyone.
