

LIST OF TABLES

		Page
Chapter 1		
Table 1.1	Putative secreted salivary proteins from ticks curated as gene families	16
Table 1.2	Some tick-protective proteins	20
Chapter 2		
Table 2.1	Primers for amplification of ITS2 and 16S rDNA	25
Table 2.2	Some morphological characters of <i>R. (B) microplus</i> and <i>H. bispinosa</i>	30
Table 2.3	Sequences submitted to NCBI database with GenBank™ accession numbers	32
Table 2.4	Pairwise distance of ITS2 of <i>Haemaphysalis bispinosa</i> with 5 <i>Haemaphysalis</i> and 1 <i>Ixodes</i> ticks	36
Chapter 5		
Table 5.1	Percentage inhibition of thrombin amidolytic activity by peptidic fragments of rHaemathrins	103
Table 5.2	Anti-coagulation activity assay of haemathrin peptidic fragments	103
