

List of Figures

1.1	The structure within the atom	2
1.2	Standard model of elementary particles	5
1.3	Basic QCD Feynmann diagrams	8
1.4	Schematic representation of DIS	10
1.5	Schematic picture of parton saturation	17
2.1	Splitting functions	43
2.2	Ladder-diagram in LLQ ² application of DIS	44
2.3	Corrections of gluon recombination	51
2.4	Fan-diagrams contributing to the GLR-MQ equation	53
3.1	Comparison of T^2 and $T_0.T(t)$ as well as T^3 and $T_1.T(t)$ versus Q^2	85
3.2	Q^2 evolution of deuteron structure functions at LO, NLO and NNLO compared with the NMC data	87
3.3	x evolution of deuteron structure functions at LO, NLO and NNLO compared with the NMC data	88
3.4	Q^2 evolution of deuteron structure functions at LO, NLO and NNLO compared with the E665 data	89
3.5	x evolution of deuteron structure functions at LO, NLO and NNLO compared with the E665 data	90
3.6	Q^2 evolution of deuteron structure functions at LO, NLO and NNLO compared with the NNPDF	91
3.7	x evolution of deuteron structure functions at LO, NLO and NNLO compared with the NNPDF	92
3.8	Q^2 evolution of proton structure functions at LO, NLO and NNLO compared with the NMC data	93

3.9	Q^2 evolution of proton structure function at LO, NLO and NNLO compared with the E665 data	94
3.10	Q^2 evolution of proton structure functions at LO, NLO and NNLO compared with the H1 data	95
4.1	Comparison of T^2 and $T_0.T(t)$ as well as T^3 and $T_1.T(t)$ versus Q^2 . . .	109
4.2	Q^2 evolution of gluon distribution functions at LO, NLO and NNLO compared with GRV1998NLO	110
4.3	x evolution of gluon distribution functions at LO, NLO and NNLO compared with GRV1998NLO	111
4.4	Q^2 evolution of gluon distribution functions at LO, NLO and NNLO compared with MRST2004NNLO	112
4.5	x evolution of gluon distribution functions at LO, NLO and NNLO compared with MRST2004NNLO	113
4.6	Q^2 evolution of gluon distribution functions at LO, NLO and NNLO compared with MSTW2008NNLO	114
4.7	x evolution of gluon distribution functions at LO, NLO and NNLO compared with MSTW2008NNLO	115
4.8	x evolution of gluon distribution functions at LO, NLO and NNLO compared with JR09NNLO as well as BDM model	116
5.1	Shadowing corrections on the Q^2 dependence of gluon distribution compared with GRV1998LO, GJR2008LO, MRST2001LO, MSTW2008LO as well as EHKQS model.	135
5.2	Shadowing corrections on the Q^2 dependence of gluon distribution compared with HERAPDF0.1, CT10 and NNPDF	136
5.3	Small- x behaviour of gluon distribution with shadowing corrections compared with GRV1998LO, GJR2008LO, MRST2001LO, MSTW2008LO as well as with the H1 data.	137
5.4	Small- x behaviour of gluon distribution with shadowing corrections compared with HERAPDF0.1, CT10, NNPDF as well as with the results of BZ model.	138
5.5	A plot of GLR-MQ/DGLAP ratio for gluon distribution function. . .	139

5.6	Sensitivity of R	139
5.7	Compatibility of Regge type solution with the DLA solution	139
6.1	Shadowing corrections on the Q^2 dependence of singlet structure function compared with the NMC data	157
6.2	Shadowing corrections on the Q^2 dependence of singlet structure function compared with the E665 data	158
6.3	Shadowing corrections on the Q^2 dependence of singlet structure function compared with the NNPDF parametrization	159
6.4	Small- x behaviour of singlet structure function with shadowing corrections compared with the NMC data	160
6.5	Small- x behaviour of singlet structure function with shadowing corrections compared with the E665 data	161
6.6	Small- x behaviour of singlet structure function with shadowing corrections compared with the NNPDF parametrization	162
6.7	A plot of the GLR-MQ/DGLAP ratio for singlet structure function. .	163
6.8	Logarithmic derivative of the singlet structure function vs. Q^2	163
6.9	Logarithmic derivative of the singlet structure function vs. x	164
7.1	Comparative analysis of different nonlinear equations.	175
