

## List of Tables

<b>Table</b>	<b>Caption</b>	<b>Page no.</b>
<b>Table 3.1</b>	Compositional analysis of FePt nanodots	42
<b>Table 3.2</b>	Variation of precursors in synthesis processes A, B, & C	45
<b>Table 3.3</b>	Compositional analysis of FePt-A MNPs	49
<b>Table 4.1</b>	Decay components obtained from TRPL results for both CdTe and CdSe QDs	68
<b>Table 4.2</b>	Dose dependent concentration of QD systems	72
<b>Table 4.3</b>	Decay components obtained from TRPL results for CdS quantum dots	81
<b>Table 4.4</b>	Dose dependent concentration of CdS QD system	82
<b>Table 5.1</b>	Quantitative data from EDX analysis of GSH capped (a) FePt@CdTe (b) FePt@CdSe	96
<b>Table 5.2</b>	Decay components obtained from TRPL results for both pristine and hybrid nanosystems	102
<b>Table 5.3</b>	Comparative Quantum yield (QY) values of pristine and hybrid nanosystems	102
<b>Table 5.4</b>	Decay components obtained from TRPL results for both pristine CdS and hybrid nanosystems	114
<b>Table 5.5</b>	Comparative Quantum yield (QY) values of pristine and hybrid nanosystems	114
<b>Table 6.1</b>	Dose dependent concentrations of hybrid nanosystems	122
