Undertaking this compiled PhD work has been a truly life-challenging experience for me. It would have never been possible without the moral inspiration, support, and guidance that I received from many people. As I reach another cornerstone in my bathymetric academic journey, I take this proud privilege to express my eternal feelings and heartfelt indebtedness to them in accomplishing my research works.

*First of all, I would like to express my deepest sense of gratitude especially to my enthusiastic PhD supervisor, **Dr. Pralay Kumar Karmakar** (Associate Professor, Department of Physics, Tezpur University), for his dynamic, constant and meticulous supervision.
