

CONTENTS:

Certificate	1
Acknowledgement	2
Contents	3
1. Chapter 1	
1. Introduction	4
1.1 Nanoparticle	5
1.2 Semiconductor Nanoparticle	7
1.3 Doped semiconductor nanoparticle	12
1.4 Theoretical Aspects	13
2. Chapter 2	
2 Synthesis Process	17
2.1 Preparation process	18
2.2 Synthesis of the smple	19
3. Chapter 3	
3. Characterization	20
3.1 UV vis-spectra of the sample	21
3.2 Result and discussion	23
4. Chapter 4	
4.1 Conclussion	26
4.2 Application and future prospects	27
4.3 Future Plan	28
References	29
