

### ACKNOWLEDGEMENT

I sincerely wish to express my deep sense of gratitude to Dr. K.Kr. Baruah who is the technical officer of department of physics, Tezpur University and my project guide, for his inspiring guidance and valuable suggestions that helped the progress of the project a success. I am really indebted by his crucial contribution.

I would also like to acknowledge the assistance received from several individuals during the preparation of this report.

Date: 26/11/2007

Marto loya

Third semester

Roll no.: PHY06012

SESSION: 2007

TO WHOME IT MAY CONCERN

This is to certify that the minor project work entitled “ **design study of an experimental setup to measure wavelength dependent verdet constant**” submitted by Mr. Marto loya, Third semester student of M.Sc. course in Physics, Roll no.: PHY06012, session 2007, Department of Physics. He pursued his project work under my supervision in the department of physics.

During the project work he has been sincere and hard working. I wish him success in life.

Place: Tezpur  
Date: 26/11/2007

Dr. Kishor Kr. Baruah,  
Technical Officer,  
Department of Physics,  
Tezpur University.
