

Contents

- I. Introduction
 - Historical background of coronal mass ejection (CME)
- II. Solar & Observatory Heliospheric Satellite(SOHO)
 - Origin of SOHO mission
 - Scientific aim and capabilities of SOHO
 - Design and industrial involvement
 - Operation
- III. LASCO(Large Angle & Spectrometric Coronagraph
- IV. Solar activity cycle
- V. Structures and properties of Coronal Mass Ejection(CME)
- VI. Relation of CME with Solar activity cycle
- VII. Procedure
- VIII. Result
- IX. Discussion and Conclusion
- X. References
