Abstract

CHAPTER-I INTRODUCTION

- | | | |
|-----|-----------------------------------|---|
| 1.1 | Zinc-Oxide (ZnO) | 1 |
| 1.2 | Tabulation of physical properties | 2 |
| 1.3 | Aim of the project work | 3 |

CHAPTER-II EXPERIMENTAL

- | | | |
|-----|-----------------------------|---|
| 2.1 | Materials | 4 |
| 2.2 | Synthesis doped and undoped | 5 |

CHAPTER-III CHARACTERIZATION

- | | | |
|-----|--------------------------------------|----|
| 3.1 | X-Ray Diffraction Studies | 6 |
| 3.2 | Scanning Electron microscope (SEM) | 7 |
| 3.3 | Energy dispersive spectroscopy (EDX) | 8 |
| 3.4 | UV-Visible spectroscopy | 9 |
| 3.5 | Photoluminescence | 10 |

CHAPTER-IV RESULT AND DISCUSSION

- | | | |
|-----|---|----|
| 4.1 | X-Ray Diffraction Pattern | 11 |
| 4.2 | SEM Analysis | 14 |
| 4.3 | EDX Analysis | 16 |
| 4.4 | Optical Absorption and Band gap | 17 |
| 4.5 | Photoluminescence study of ZnO: Li, ZnO: Mn and ZnO: Fe Particles | 23 |

CHAPTER-V Conclusion and Future Prospects 26
