## **ACKNOWLEDGEMENTS**

*It is a matter of immense pleasure for me to express profound sense of gratitude to my honored supervisor Prof. Ashok Kumar for his dynamic and meticulous supervision, motivation and encouragement during my Ph.D. work. I was fortunate enough to avail all resources for his genial inspiration and enthusiastic encouragement throughout the course of my work. Without his serious involvement, thoughtfulness and patience, it would have been difficult for me to complete this thesis in time. I always admire the training given by him, which has always helped me to achieve my desired goal.*

*I extend my sincere gratitude to my doctoral committee members, Dr. D. Mohanta, and Prof. P. Deb, Department of Physics for their encouragement, inspirational and fruitful discussion during my Ph.D. work. I am highly grateful to all the faculties of Department of Physics for their personal involvement, timely help, stimulating discussion to carry out my research.*
