

## *Acknowledgements*

*This thesis is my journey accompanied with encouragement, hardship and faith which has been a fascinating ride that I am about to complete. I would like to take this opportunity to acknowledge all the people closely associated with and contributed to my journey in many ways to make this Ph.D. thesis a possibility.*

*First of all, I would like to express my sincere and deepest gratitude to my supervisor Prof. (Dr.) Ruli Borah, Department of Chemical Sciences, Tezpur University, for her continuous support and guidance throughout the Ph.D. tenure. Receiving an independent and friendly research environment is really an accomplishment which has been possible only for the understanding and the path you guided me with. From the fear I had before entering the lab to the moment of excitement of completing this thesis is the reward of your positivity, inspiration and cooperation you given me in these years. I am grateful enough to have you as my mentor.*

*I would also like to thank the Head of the Department of Chemical Sciences and my doctoral committee members, Prof. Ramesh C. DeKa and Dr. Utpal Bora, for their valuable suggestions and constructive criticisms while pursuing my Ph.D.*

*I extend my sincere words of thanks to all the faculty members, technical/non-technical staff of the Department of Chemical Sciences for their help and support during my research years. I would like to thank SAIC, Tezpur University, CIF, IIT Guwahati and SAIIF NEHU, Shillong for technical support. I also thank University Grants Commission (UGC) and Council of Scientific and Industrial Research (CSIR) for financial support throughout my PhD tenure.*

*I owe my sincere gratitude towards former Vice Chancellor Prof. Mihir Kanti Choudhury and present Vice Chancellor Prof. Vinod Kumar Jain for providing me the opportunity to carry out my research work in this university.*

*My acknowledgement will be incomplete without a special mention to my lab mates. As seniors Papiya ba, Parishmita ba, Pinky ba and Arup da have been very supportive from the beginning of my life as research scholar. They taught me the lab culture and have lived by example to make me understand every small fact. Specially, Pinky ba has been a great sister cum very close friend of mine helping me through the times when I really needed someone to rely. Coming to my dearest juniors Kabita, Sukanya, Niharika, Sangeeta and Debanga, you are the coolest of all. Besides the assistance I got from you, Kabita and Sukanya has been my partner in crime for many times. I will always miss the never ending talks (whatever the topic), the problems we solved (personal or professional), the laughter we*

*shared, and the songs we enjoyed in the lab. At this moment, I have realized that you have been like medicine for all my tensions during Ph.D. days and I have been living my best days with you all.*

*My heartfelt thanks to my two best buddies Bagmita and Nilufar for your 24\*7 presence in my life. I feel lucky enough to have both my old friends with me in Ph.D. days that helped me going through anything. From the serious talks on life, to many unrealistic thoughts we shared (this is our hobby) what made my life easier. Special thanks to Manashi, Maman ba, Suchi ba, Gangutri ba, Kabirun ba, Mitu, Prachurjya, Anup, Gorishmita, Manash, Krishna, Parag, Anindita, Bikoshita, Trisha and Debasish. I would like to thank Samiran da for helping during my research and being a brother to talk with when I needed. Thanks to my M.Sc. buddies Amlan and Gyanashree for hearing me and supporting in my hard times. I am thankful to all the menial staff of PMCWH for making me feel homely.*

*I am indebted to Dhruba for being so supportive, understanding and giving a shoulder to lean on whenever I felt low. I am grateful to my brother from another mother Nayan da for your valuable suggestions, inspirations and friendly talks which filled my sighs with new hopes. Thanks to Sum for being there with Mom and fulfilling my duties on behalf of me.*

*Words are very few to acknowledge the people who mean the world to me. I feel a deep sense of gratitude towards my late father who has always been the strength of mine in every step of life. I am short of words to express how grateful I am to my mother and my little brother (Babu). There was a time when you both were struggling along with me. I can't thank both of you enough for showing faith in me and giving me the liberty to choose what I desired. Thanks Babu, for being the best brother cum friend all the time.*

*Finally, I would like to thank my family members for encouraging me to become the person who I am now.*

*Susmita Saikia*
