CONTENTS

List of Tables **xiii**

1 Introduction **1-12**

1.1 Background of study 2

1.2 Methodologies applied 5

1.3 Estimation 9

1.4 Objectives 9

1.5 Outline and Organization of the Thesis 10

2 Discrete Janardan distribution and its applications **13-26**

2.1 Introduction 13

2.2 Discretization of Janardan distribution 13

2.2.1 Probability mass function 13

2.2.2 Probability generating function 14

2.2.3 Probability recurrence relation 15

2.2.4 Cumulative distribution function 15

2.2.5 Survival function 14

2.2.6 Failure hazard rate function 15

2.2.7 Reversed failure rate function 15

2.2.8 Second rate of failure function 15

2.2.9 Factorial Moment generating function 15

2.2.10 Factorial recurrence relation 15

2.3 Zero truncated discrete Janardan distribution 16

2.3.1 Probability generating function for ZTDJ distribution 17

2.3.2 Probability recurrence relation for ZTDJ distribution 17

2.3.3 Cumulative distribution function for ZTDJ distribution 17

2.3.4 Survival function for ZTDJ distribution 17

2.3.5 Failure hazard rate function for ZTDJ distribution 18

2.3.6 Reversed failure rate function for ZTDJ distribution 18
2.3.7 Second rate of failure function for ZTDJ distribution 18
2.3.8 Proportion of probabilities for ZTDJ distribution 18
2.3.9 Factorial moment recurrence relation for ZTDJ distribution 18
2.4 Size biased discrete Janardan distribution 19
2.4.1 Probability generating function of SBDJ distribution 20
2.4.2 Recurrence relation of SBDJ distribution 20
2.4.3 Factorial moment generating function 20
2.5 Zero modified discrete Janardan distribution 21
2.6 Estimation of parameters of DJ distribution 21
2.6.1 Estimation based on first three relative frequencies and mean 21
2.6.2 Estimation based on first four relative frequencies and mean 22
2.6.3 Maximum Likelihood estimates 23
2.7 Goodness of fit of DJ distribution 24
2.8 Discussion 26
3 Discrete Sushila distribution and its application 27-40
3.1 Introduction 27
3.2 Discretization of Sushila distribution 27
3.2.1 Probability mass function 27
3.2.2 Probability generating function 28
3.2.3 Probablity recurrence relation 28
3.2.4 Cumulative distribution function 28
3.2.5 Survival function 28
3.2.6 Failure rate function 29
3.2.7 Reversed failure rate function 29
3.2.8 Second rate of failure function 29
3.2.9 Factorial moment generating function 29
3.2.10 Factorial moment's recurrence relation 30
3.3 Zero truncated discrete Sushila distribution 30

3.3.1 Probability generating function of ZTDS distribution 31
3.3.2 Probability recurrence relation of ZTDS distribution 31
3.3.3 Cumulative distribution function of ZTDS distribution 31
3.3.4 Survival function of ZTDS distribution 31
3.3.5 Failure rate function of ZTDS distribution 32
3.3.6 Reversed failure rate function of ZTDS distribution 32
3.3.7 Second rate of failure function of ZTDS distribution 32
3.3.8 Proportion of probabilities of ZTDS distribution 32
3.3.9 Factorial moment recurrence relation of ZTDS distribution 33
3.4 Size biased discrete Sushila distribution 33
3.4.1 Probability generating function of SBDS distribution 34
3.4.2 Recurrence relation of SBDS distribution 34
3.4.3 Factorial moment generating function of SBDS distribution 34
3.4.4 Factorial moment recurrence relation of SBDS distribution 35
3.5 Zero modified discrete Sushila distribution 35
3.6 Estimation of parameters 35
3.6.1 Maximum Likelihood estimates 36
3.7 Goodness of fit 37
3.8 Discussion 39

4 Discrete quasi Lindley distribution 41-54

4.1 Introduction 41
4.2 Discretization of quasi Lindley distribution 41
4.2.1 Probability mass function 41
4.2.2 Probability generating function 42
4.2.3 Recurrence relation for Probabilities 42
4.2.4 Cumulative distribution function 42
4.2.5 Survival function 42
4.2.6 Failure hazard rate function 43
4.2.7 Reversed failure rate function 43
4.2.8 Second rate of failure function 43

4.2.9 Proportion of probabilities 43
4.2.10 Factorial moment generating function 44
4.2.11 Factorial moment recurrence relation 44
4.3 Zero truncated two parameter discrete quasi Lindley distribution 44
4.3.1 Probability generating function of ZTDQL distribution 45
4.3.2 Probability recurrence relation of ZTDQL distribution 45
4.3.3 Cumulative distribution function of ZTDQL distribution 45
4.3.4 Survival function of ZTDQL distribution 45
4.3.5 Failure hazard rate function of ZTDQL distribution 45
4.3.6 Reversed failure rate function of ZTDQL distribution 46
4.3.7 Second rate of failure function of ZTDQL distribution 46
4.3.8 Proportion of probabilities of ZTDQL distribution 46
4.3.9 Factorial Moment generating function of ZTDQL distribution 46
4.4 Size biased two parameter discrete quasi Lindley distribution 47
4.4.1 Probability generating function of SBDQL distribution 48
4.4.2 Recurrence relation of SBDQL distribution 48
4.4.3 Factorial moment generating function of SBDQL distribution 48
4.4.4 Factorial moment recurrence relation of SBDQL distribution 49
4.5 Zero modified of discrete quasi Lindley distribution 49
4.6 Estimation of parameters of DQL distribution 50
4.6.1Estimation of parameter in terms of mean and variance of DQL distribution 50
4.6.2 Maximum Likelihood estimates 50
4.7 Goodness of Fit 51
4.8 Conclussion 54

5 Discrete new quasi Lindley Distribution 55-68

5.1 Introduction 55
5.2 Discretization of a new quasi Lindley distribution 55
5.2.1 Probability mass function 56
5.2.2 Probability generating function 56

5.2.3 Cumulative distribution function 56
5.2.4 Survival function 56
5.2.5 Failure rate function 56
5.2.6 Reversed failure rate function 57
5.2.7 Second rate of failure function 57
5.2.8 Proportion of probabilities 57
5.2.9 Probability recurrence relation 57
5.2.10 Factorial moment generating function 58
5.3 Zero truncated of new NDQL distribution 58
5.3.1 Probability generating function of ZTNDQL distribution 59
5.3.2 Probability recurrence relation of ZTNDQL distribution 59
5.3.3 Cumulative distribution function of ZTNDQL distribution 59
5.3.4 Survival function of ZTNDQL distribution 59
5.3.5 Failure rate function of ZTNDQL distribution 60
5.3.6 Reversed failure rate of ZTNDQL distribution 60
5.3.7 Second rate of failure of ZTNDQL distribution 60
5.3.8 Proportion of probabilities of ZTNDQL distribution 60
5.3.9 Factorial moment generating function of ZTNDQL distribution 61
5.4 Size biased new discrete quasi-Lindley distribution 62
5.4.1 Probability generating function of SBNDQL distribution 62
5.4.2 Recurrence relation of SBNDQL distribution 62
5.4.3 Factorial moment generating function of SBNDQL distribution 62
5.4.4 Factorial moment recurrence relation of SBNDQL distribution 63
5.5 Zero modified discrete new quasi Lindley distribution 63
5.6 Estimation of parameters of SBNDQL distribution 64
5.6.1 Estimation of parameter in terms of mean and variance 64
5.6.2 Maximum Likelihood estimates 64
5.7 Goodness of fit 66
5.8 Conclusion 68

6.1 Two Parameter Discrete Lindley distribution 69-83

6.1 Introduction 69

6.2 Discretization of TPL distribution 69

6.2.1 Probability mass function 70

6.2.2 Probability generating function 70

6.2.3 Cumulative distribution function 70

6.2.4 Survival function 70

6.2.5 Failure rate function 70

6.2.6 Reversed failure rate function 71

6.2.7 Second rate of failure function 71

6.2.8 Proportion of probabilities 71

6.2.9 Probability recurrence relation 71

6.2.10 Factorial moment generating function 72

6.3 Zero truncated two parameter discrete Lindley distribution 73

6.3.1 Probability generating function of ZTTDL distribution 73

6.3.2 Cumulative distribution function of ZTTDL distribution 73

6.3.3 Survival function of ZTTDL distribution 74

6.3.4 Failure hazard rate function of ZTTDL distribution 74

6.3.5 Reversed failure rate function of ZTTDL distribution 74

6.3.6 Second rate of failure function of ZTTDL distribution 74

6.3.7 Proportion of probabilities of ZTTDL distribution 74

6.3.8 Factorial moment generating function of ZTTDL distribution 75

6.4 Size biased two parameter discrete Lindley distribution 76

6.4.1 Probability generating function of SBTDL distribution 76

6.4.2 Recurrence relation of SBTDL distribution 76

6.4.3 Factorial moment generating function of SBTDL distribution 76

6.4.4 Factorial moment recurrence relation of SBTDL distribution 77

6.5 Zero modified two parameter discrete Lindley distribution 77

6.6 Estimation of parameters 78

6.6.1 Estimation of parameter in terms of mean and variance 78

6.6.2 Maximum Likelihood estimates 79
6.7 Goodness of fit 80
6.8 Conclusion 83

7 Discrete gamma Lindley distribution 84-97

7.1 Introduction 84
7.2 Discretization of gamma Lindley distribution 84
7.2.1 Probability mass function 84
7.2.2 Probability generating function 85
7.2.3 Cumulative distribution function 85
7.2.4 Survival function 85
7.2.5 Failure hazard rate function 85
7.2.6 Reversed failure rate function 85
7.2.7 Second rate of failure function 86
7.2.8 Proportion of probabilities 86
7.2.9 Probability Recurrence relation 86
7.2.10 Factorial Moment generating function 86
7.3 Zero truncated discrete gamma Lindley distribution 87
7.3.1 Probability generating function of ZTDGL distribution 87
7.3.2 Probability recurrence relation of ZTDGL distribution 88
7.3.3 Cumulative distribution function of ZTDGL distribution 88
7.3.4 Survival function of ZTDGL distribution 88
7.3.5 Failure hazard rate function of ZTDGL distribution 88
7.3.6 Reversed failure rate function of ZTDGL distribution 88
7.3.7 Second rate of failure function of ZTDGL distribution 89
7.3.8 Proportion of probabilities of ZTDGL distribution 89
7.3.9 Factorial moment generating function 89
7.4 Size biased discrete gamma Lindley distribution 90
7.4.1 Probability generating function of SBDGL distribution 90
7.4.2 Recurrence relation of SBDGL distribution 90

7.4.3 Factorial moment generating function of SBDGL distribution 91
7.4.4 Factorial moment recurrence relation of SBDGL distribution 91
7.5 Zero modified discrete gamma Lindley distribution 91
7.6 Parameters Estimation 92
7.6.1 Estimation of parameter in terms of mean and variance 92
7.6.2 Maximum Likelihood estimates 93
7.7 Goodness of fit 94
7.8 Conclusion 97
