Table of Contents

Abstract **i**

Declaration **iii**

Acknowledgement **vii**

Table of Contents **ix**

List of Figures **xii**

List of Tables **xv**

1 Introduction **1**

1.1 Oldroyd Model of Order One 2

1.2 Notations and Preliminaries 6

1.3 A Brief Literature Review 18

1.3.1 Backward Euler Method 20

1.3.2 Two-grid Method 22

1.3.3 Penalty Method 24

1.3.4 Grad-div Stabilization 26

1.3.5 Nonconforming Finite Element Method 29

1.4 Chapter-wise Outline of the Thesis 30

2 Backward Euler Method **33**

2.1 Introduction 33

2.2 *A Priori* and Regularity Estimates 36

2.3 Error Analysis for the Velocity 46

2.4 Uniform Error Estimates 62

2.5 Numerical Experiments 65
2.6 Conclusion 72

3 Two-grid Method **73**
3.1 Introduction 73
3.2 Two-Grid Formulation 77
3.3 Semidiscrete Error Analysis 79
3.3.1 Optimal Velocity Error Estimates in Step II 81
3.3.2 Optimal Velocity Error Estimates in Step III 94
3.3.3 Optimal Pressure Error Estimates 99
3.4 Fully Discrete Error Estimates 101
3.4.1 *A Priori* Bounds 102
3.4.2 Fully Discrete Error Estimates 104
3.5 Numerical Experiments 110
3.6 Conclusion 112

4 Penalty Method **113**
4.1 Introduction 113
4.2 Preliminaries 117
4.2.1 A Priori and Regularity Estimates for the Penalized Solution . . 119
4.3 Semidiscrete Formulation 125
4.3.1 *A Priori* Estimates 126
4.3.2 Error Analysis for the Velocity 131
4.3.3 Error Analysis for the Pressure 138
4.3.4 Uniform in Time Bounds 140
4.4 Fully Discrete Formulation 142
4.4.1 Fully Discrete Error Estimates 145
4.5 Numerical Experiments 154
4.5.1 Oldroyd Model of Order One 154
4.5.2 Navier-Stokes Equations 160
4.6 Conclusion 163

5 Grad-div Stabilization **165**
5.1 Introduction 165

5.2 Preliminaries . . . 170
5.3 Semidiscrete Formulation . . . 172
5.3.1 Semidiscrete Error Estimates for Sufficiently Smooth Data . . . 174
5.3.2 Semidiscrete Error Estimates for Smooth Data . . . 181
5.4 Fully Discrete Formulation . . . 184
5.4.1 Fully Discrete Error Estimates for Sufficiently Smooth Data . . . 184
5.4.2 Fully Discrete Error Estimates for Smooth Data . . . 189
5.5 Numerical Experiments . . . 191
5.5.1 Known Analytic Solutions . . . 191
5.5.2 Choice of Grad-div Parameter . . . 194
5.6 Conclusion . . . 197

6 Nonconforming Finite Element Method 199
6.1 Introduction . . . 199
6.2 Preliminaries . . . 203
6.3 Semidiscrete Error Analysis . . . 206
6.3.1 Uniform in time bounds . . . 217
6.4 Fully Discrete Error Analysis . . . 218
6.4.1 Backward Euler Method . . . 219
6.4.2 Euler Incremental Pressure Correction Method . . . 220
6.5 Numerical Experiments . . . 224
6.6 Conclusion . . . 227

7 Conclusion and Future Work 229
7.1 Concluding Remarks . . . 229
7.2 Future Plan . . . 233
