Supervisor

Acknowledgements

Research is a challenging journey which cannot be fulfilled without the help and inspiration of other people. So I would like to take this opportunity to express my gratitude to all the people who helped me in some way or the other in successfully completing my endeavour of getting a Doctorate degree.

At the outset, I would like to offer my sincere gratitude to Tezpur University and the Department of Education for providing me with the opportunity to pursue the Ph.D. programme. I am extremely grateful and indebted to my supervisor Prof. Nil Ratan Roy of the Department of Education, Tezpur University, for continuously guiding and giving me confidence during the entire research work. In this journey of mine, he has been like a friend, philosopher and guide to me and without your patient and tireless support this research work would not have been possible. He has been an indelible influence on what I am today as a researcher and also as a person.

I express deep and sincere gratitude to the Doctoral Committee members, Dr Partima Pillai and Dr. Hitesh Sharma, for supporting me with their valuable observations and suggestions during the whole research process. I convey my sincere appreciation for the guidance received from all other doctoral research committee (DRC) members and faculty members of the Department. I must also appreciate the nonteaching staff of the Department of education for always being kind and helpful to me.

I wish to express my sincere gratitude to Professor Karanam Pushpanadham from the Department of Educational administration, Maharaja Sayajirao University of Baroda University, who guided me design the foundational framework of my thesis and always welcomed me with an open heart to consult and discuss my research work. I would also like to convey my deep gratitude to Prof Rajendra Pal of CIET, National

Council of Educational Research and Training who encouraged me to work harder and gave precious insights towards my research work.

I am indebted to Dr Ambedkar International Centre, New Delhi for awarding me the Doctoral Fellowship. The fellowship has boosted my financial status and motivated me to find more time and energy to focus on research.

My gratitude also goes to the principals and teachers of the school selected for the study and specially the school students for providing me the required data, without which my research would not have been possible. I recall the generous support offered by Mr Biswajit Sharma during my data collection, thereby extending a helping hand in his best possible way, in carrying out my research work.

I am thankful to Dr Tribeni Devi maam, my most loved Nayonika and Navaneet (Babu & Munu) for immense love, care and support during my research journey. They have left no stones unturned to provide me with a pleasant homely environment in University campus.

Special thanks to Happy, Munmi and Pranjal for being my great friends during the period of my research work. I will always be glad for the memories we shared together. I am forever grateful to Shyamali, Urbashi ba, Minhaz ba, devolina baa, Upasana who have been like a family and amazing supporters during my whole research period. I express my gratitude towards my dear friends Madhu, Primee and Sandip Sutradhar for his encouragement and persuasion not to lose hope. I shall be forever grateful to Antara, Aarti, Ramanath, Sunita, Puja, Kathrine, Gaurav, Hellen and other research scholars in the department for sparing time for me and supporting me whenever needed.

I am also filled with deep appreciation for encouragement of BSG members ,my seniors and friends in faith for whom I developed the strength to deal with challenges and transform them.

Special mention goes to Manas Jyoti Chamua for his relentless support and boost. I am very thankful to my beloved Aaita and aunties Rita Hazarika, Nilakshi Hazarika, Lakhi Senapati and other family members for their love, support and constant encouragement.

Finally, my greatest debts to Maa and Papa and my sisters (Sampreeti & Simran) for their unconditional love and support. They believed in me more than I do myself and are always my pillars of strength. They have endured a lot due to my research work away from home and, therefore, this degree of Doctor of Philosophy is as much their as it is mine.
