

# Declaration

I, **Satyajit Das**, hereby declare that the present thesis, entitled “**Design and Development of Capacitive Sensor for Bitterness Assessment in Citrus Fruit Juices**”, is the record of work done by me under the supervision of Prof. Partha Pratim Sahu, Professor, Department of Electronics and Communication Engineering, Tezpur University, Tezpur. The contents of the thesis represent my original works that have not been previously submitted for any Degree/Diploma/Certificate in any other University or Institutions of Higher Education.

This thesis is being submitted to Tezpur University for the Degree of Doctor of Philosophy in Electronics and Communication Engineering.

Place: Tezpur University, Tezpur

Date:

---

(Satyajit Das)

# TEZPUR UNIVERSITY

Napaam, Tezpur-784028, Sonitpur, Assam, India

---

## Certificate

This is to certify that the thesis entitled, “**Design and Development of Capacitive Sensor for Bitterness Assessment in Citrus Fruit Juices**”, submitted to the School of Engineering, Tezpur University in partial fulfillment for the award of the degree of Doctor of Philosophy in Electronics and Communication Engineering is a record of research work carried out by **Mr. Satyajit Das** under my supervision and guidance.

All help received by him from various sources have been duly acknowledged.

No part of this thesis has been submitted elsewhere for award of any other degree.

(Supervisor)

Partha Pratim Sahu  
Professor, Department of  
Electronics and Communication  
Engineering  
School of Engineering, Tezpur University

## Certificate of the External Examiner

This is to certify that the thesis entitled “**Design and Development of Capacitive Sensor for Bitterness Assessment in Citrus Fruit Juices**” submitted by **Mr. Satyajit Das**, Department of Electronics & Communication Engineering, School of Engineering, Tezpur University in partial fulfilment for the award of the degree of Doctor of Philosophy in Electronics & Communication Engineering has been examined by us on \_\_\_\_\_ and found to be satisfactory.

The committee recommends for the award of the degree of Doctor of Philosophy.

**Supervisor**

**Date:** \_\_\_\_\_

# Acknowledgement

At the very outset, I take it as an honour to express my profound gratitude and sincere thanks to my respected supervisor Partha Pratim Sahu, Professor, Department of Electronics and Communication Engineering, Tezpur University, for his invaluable supervision, guidance and constructive suggestions and particularly for his meticulous approach and gracious engagement at each and every stage of the course to make this project a reality and success.

I also express my gratitude to the Head of the Department, Electronics and Communication Engineering and all the faculty members and staff of the department for their untiring support and co-operation during the whole duration of my Ph.D. course. In addition I would also like to offer my sincere thanks to the institute authority for providing me the access to the laboratory and research facilities.

I wish to acknowledge Prof. P. Mishra, Professor, Department of FET, Tezpur University for her insightful suggestions. I offer my thanks to Dr. B. Mondal, Assistant Prof. Dept of ECE for his continuous help in my work. I would like to thank the Sophisticated Analytical Instrument Center (SAIC), Tezpur University, for providing facilities for characterization and express my gratitude to all staff members of SAIC. I offer my thanks to Dr. Arun Kumar Gupta and the research scholars of Food and Vegetable lab of FET dept. TU for their help in carry out my work. Also, I would like to express my gratitude to my lab mates and friends, Dr. Palash Phukan, Dr. Rewrewa Narzary, Dr. Jagat Das, Mr. Nithin Joseph Panicker, Dr. Mukut Senapati, Mr Geetartha Sarma, Mr. Mrigendra Yadav for their support and assistance. I am thankful to Ms. Honey Brahma for helping in the characterization process.

I am deeply gratefull to my father, mother, wife, my son, all my friends and family members for their unconditional support that have been my treasure and strength.

Last but not the least, heartiest thanks to the Almighty, who bestowed all his blessings on me.

Satyajit Das

*Dedicated to my*

# Nomenclature

## Symbols:

$a$	Gap between two consecutive electrodes
$\beta$	Line broadening at half the maximum intensity
$C_{\text{total}}$	Total capacitance
$C_{\text{I}}$	Internal capacitance
$C_{\text{e}}$	Edge capacitance
$K(k)$	first-order elliptic integral,
$k$	elliptical modulus Fringe capacitances along the length L
$C_{\text{f}}$	Fringe capacitances along the width W
$C_{\text{stray}}$	Stray capacitance
$C_{\text{test}}$	Capacitance under test (unknown capacitance)
$C_{\text{s}}$	Capacitance due to $\epsilon_{\text{s}}$
$C_{\text{t}}$	Capacitance due to $\epsilon_{\text{m}}$
$C_{\text{f}}$	Capacitance due to $\epsilon_{\text{o}}$
$t$	Thickness of the electrode
$D$	Average Crystallite size
$e^{-}$	Electrons
$\epsilon_0$	Permittivity in vacuum
$\epsilon_{\text{m}}$	Relative permittivity of sensing layer
$\epsilon_{\text{s}}$	Relative permittivity of substrate
$G$	Gap between Electrode fingers
$h$	Hours
$h$	Height of the sensing layer
$K$	Dimensionless shape vector, constant
$k$	Modulus of elliptical integral
$L_{\text{f}}$	Overlapping Length of the electrode

$L_e$	Length of the electrode
ns	Nano seconds
N	Number of electrodes
OH $\cdot$	Hydroxyl radical
O $^-$	Oxygen ionic species
O $_2^-$	Anionic superoxide radicals
R $^2$	Regression coefficient
R	Sensor response
s	second
$V_{Out}$	Output Voltage
$V_{in}$	Input voltage
W	Width of the electrode fingers
q	Charge
R	Resistance
$\sigma$	standard deviation
$\theta$	Diffraction angle
$\lambda$	X-ray wavelength

## Abbreviations:

Ag	Silver
Au	Gold
CeO $_2$	Cerium oxide
CAM	(cytoplasmatic acetate mevalonate).
CNP	Ceria Nanoparticles
DPPH	1,1-Diphenyl-2-picryl-hydrazyl
2DMs	Two-dimensional materials

DO	Dissolved oxygen
DI	De-ionized
EIA	Enzyme-linked-immuno adsorbent assay
EDX	Energy Dispersion
FTIR	Fourier transform infrared
FESEM	Fourier Enhanced Scanning Electron Microscopy
FWHM	Full Width Half Median
GC	Gas chromatography
GAC	Gallic Acid Content
GLC	Gas Liquid chromatography
HPLC	High performance Liquid chromatography
HLB	Huanglongbing
IDEs	Interdigitated electrodes
LCD	Liquid crystal display
LOD	Limit of detection
LARL	Limonite A-ring lactone
MRF	Magnetic Resonance Finger Printing
MUT	Material under test
MIPs	Molecularly imprinted polymers
MgO	Magnesium Oxide
nm	Nano metre
NDT	Nondestructive testing
NPs	Nanoparticles
OFS	Optical fiber sensor

OECT	Organic Electrochemical Transistor
ppm	Parts per million
ppb	Parts per billion
PVA	Poly Vinyl Alcohol
POF	plastic optical fiber
PTFE	Polytetrafluoro ethylene
RT	Room temperature
RSD	Relative standard deviation
Rpm	Rotation per minute
RIA	Radioimmunoassay
SiO <sub>2</sub>	Silicon Di oxide
SD	Standard Deviation
SNR	signal to noise ratio
SEM	Scanning Electron Microscopy
TLC	Thin Layer Chromatography
TPC	Total Phenolic Content
TEM	Transmission Electron Microscopy
TFC	Total Flavonoid Content
UV	Ultra –violet
UV-Vis	Ultra violet visible
XRD	X- ray Diffraction
