

Dedication

*This thesis is dedicated proudly to my guiding stars and soul
Father and Mother
whose love, encouragement, and sacrifices have been the motivation for my
accomplishments and honors. I hope I was your good daughter, making you
proud in every endeavor I pursue.*

Declaration

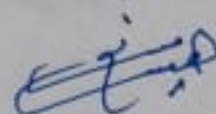

I hereby declare that the thesis entitled "*Computational investigation on the biomarkers and the role of SHANK3 in Autism Spectrum Disorder*" has been submitted to Tezpur University in the Department of Molecular Biology and Biotechnology under the School of Sciences for partial fulfillment for the award of the degree of Doctor of Philosophy in Molecular Biology and Biotechnology.

I am the sole author of this thesis. This is a true copy of the original work carried out by me including any required final revisions, as accepted by my examiners.

Further, I declare that no part of this work has been reproduced elsewhere for the award of any other degree.

Acknowledgements

First and foremost, I extend my heartfelt thanks to my supervisor, Dr. Venkata Satish kumar Mattaparthi, for his unwavering guidance, mentorship, and invaluable support throughout this short journey. His expertise, encouragement, and constructive feedback have been instrumental in shaping my research trajectory.

I am also immensely thankful to my co-supervisor, Prof. Suvendra Ray, whose insights and encouragement have enriched the depth and quality of my work.

I extend my sincere thanks to the members of my Doctoral Committee, especially Prof. Robin Doley and Dr. Rupak Mukhopadhyay, for their insightful comments and suggestions.

I would like to extend my sincere gratitude to Prof. Bolin K. Konwar for his invaluable support and encouragement that have been instrumental in completing this work.

I would like to acknowledge the Indian Council for Cultural Relations (ICCR) for the financial support and for the flexibility they provided me to pursue the research topic.

I extend my sincere thanks to Prof. Chandan Kumar Sharma, Director of the international office, and a heartfelt thank you to Prof. Prasanta K Das for his support and encouragement as ex-director of the international office.

I extend my thanks to my labmates (Dorothy, Priyanka, Chaine, Babli) and special thanks to Pronab sir for his unlimited support.

A heartfelt thank you to my friend, Khalifa. Your companionship has been a constant source of strength, turning both the good and the challenging days into memorable experiences. Your support and shared moments have made this journey not just bearable but enjoyable.

To my parents and my siblings, Zainab, Mohammad, Hassan, and Khalid, I am grateful for the bond we share; in your laughter, I find joy; in your embrace, solace; and in your unwavering support, the courage to face any challenge. Your love, encouragement, and sacrifices have been the bedrock of my accomplishments.
