

Contents

1. Introduction.....	1
1.1 Background of the study.....	1
1.2 Research gap.....	5
1.3 Objectives.....	6
1.4 Justification	6
1.5 Arrangement of thesis.....	6
1.6 Summary of chapter I.....	7
2. Review of Literature	8
2.1 Application of solar energy for drying	8
2.1.1 Solar drying.....	8
2.1.2 Incorporation of greenhouse effect in drying.....	9
2.1.3 Solar based air heating for supplementation of drying	10
2.1.4 Integration of multiple modes of supplementation for greenhouse drying	11
2.2 Drying kinetics and quality analysis of agricultural produces	13
2.2.1 Drying kinetics.....	13
2.2.2 Quality analysis.....	15
2.3 Performance evaluation of solar drying process	16
2.3.1 Computational modelling of drying Process.....	16
2.3.2 Energy and exergy Analysis.....	17
2.4 Environmental analysis and cost analysis.....	19
2.5 Summary of chapter II	19
3. Materials and Methods.....	20
3.1 Materials	21
3.1.1 Raw Material.....	21
3.1.2 Instruments.....	22
3.1.3 Software	24
3.2 Methodology	24
3.2.1 Development of solar air heating system (SAH) and integrated solar greenhouse drying (ISGHD) system.....	24
3.2.2 Experimental performance of ISGHD system for ginger drying	36
3.2.3 Thermal performance of solar sir heater (SAH) and integrated solar greenhouse drying (ISGHD) for ginger drying	45

3.2.4 The environmental and economic sustainability of ISGHD system	49
3.2.5 Uncertainty interpretation	52
3.2.6 Statistics analysis	52
3.3 Summary of chapter III.....	53
4. Results and Discussion.....	54
4.1 Performance of solar air heating (SAH) and integrated solar greenhouse drying (ISGHD) system.....	54
4.1.1 Ambient parameters	55
4.1.2 Even and span type solar greenhouse dryer structure	56
4.1.3 Efficiency of solar air heating (SAH) system	57
4.1.4 Efficiency of integrated solar greenhouse drying (ISGHD) system.....	58
4.1.5 Thermal energy storage (TES)	60
4.1.6 Effect of mass flow rate (MFR) of air inside SAH and ISGHD system	62
4.2 Drying characteristics, modelling and quality analysis	67
4.2.1 Moisture content (MC), moisture ratio (MR) and drying rate (DR)	67
4.2.2 Moisture diffusivity.....	74
4.2.3 Drying kinetics model.....	74
4.2.4 ANN	80
4.2.5 Rehydration ratio (RR).....	82
4.2.6 Shrinkage Ratio.....	83
4.2.7 Texture	83
4.2.8 Essential oil.....	84
4.2.9 Colour properties.....	85
4.2.10 Antioxidant properties.....	86
4.2.11 X-ray diffraction (XRD).....	87
4.2.12 Fourier transform infrared (FTIR)	88
4.2.13 Scanning electron micrograph (SEM).....	89
4.3 Thermal performance of solar air heating (corrugated type SAH) and developed ISGHD drying system.....	91
4.3.1 Energy rate analysis	91
4.3.2 Exergy rate analysis	94
4.3.3 CFD simulation for ginger drying.....	98
4.3.4 Uncertainty analysis.....	103
4.4 Environmental and cost analysis	104

4.4.1 Environmental.....	104
4.4.2 Economic analysis.....	106
4.5 Summary of chapter IV	107
5. Summary and Conclusion	111
5.1 Summary.....	111
5.2 Conclusion	114
5.3 Scope for Future Work	114
BIBLIOGRAPHY	116
APPENDICES	127
