

Dedicated to my parents

For Their Unwavering Faith, Unmatched Sacrifices and Boundless Support

With Endless Gratitude and Love

DECLARATION

I hereby declare that the thesis entitled “**Characterization, Valorization, and Application of Non-wood Plant-Based Nanocellulose**” submitted to the school of Engineering, Tezpur University, in partial fulfillment of the requirements for the award of the Doctor of Philosophy in the Department of Food Engineering and Technology is a record of original research work carried out by me. Any text, figures, theories, results or designs that are not of my own devising are appropriately referenced in order to give credit to the original author(s). All the sources of assistance have been assigned due acknowledgement. I also declare that neither this work as a whole nor a part of it has been submitted to any other university or institute for any degree, diploma, associateship, fellowship or any other similar title or recognition.

CERTIFICATE OF THE SUPERVISOR

This is to certify that the thesis entitled “**Characterization, Valorization and Application of Non-wood Plant-Based Nanocellulose**” submitted to the **School of Engineering, Tezpur University** in partial fulfilment of the requirements for the award of the degree of **Doctor of Philosophy** in the **Department of Food Engineering and Technology** is a record of original research work carried out by **Ms. Beatrice Basumatary** under my supervision and guidance.

All helps received by him from various sources have been duly acknowledged.

No part of this thesis has been submitted elsewhere for the award of any other degree.

(Prof. Charu Lata Mahanta)

Date: 30-12-2024

Place: Tezpur

ACKNOWLEDGEMENT

First and foremost, I thank **Almighty God** for bestowing upon me the strength, courage, wisdom, and perseverance needed to overcome challenges and achieve the successful completion of my research work and thesis.

I express my heartfelt gratitude to all who have supported me throughout this journey. It has been a privilege to work under the guidance of my supervisor, **Prof. Charu Lata Mahanta**. Her academic and personal guidance, coupled with her unwavering support, has been invaluable during my PhD journey. I am deeply indebted to her for her generosity, care, and encouragement, which played a vital role in the successful completion of my thesis. I am especially grateful for her patience and understanding throughout this process. Her knowledge and support have been the foundation upon which I built my achievements.

I would like to express my gratitude to the members of the **Doctoral Committee (DC): Prof. Laximikant S. Badwaik and Prof. Debendra Chandra Baruah** and **Departmental Research Committee (DRC)** for their insightful feedback, guidance, and invaluable contributions that greatly enriched my PhD thesis.

I would like to extend my thanks to the **Head of Department, faculty members,** and **technical staff** of the FET department for their selfless service and consideration to me to complete my project.

I am grateful to my **batchmates, seniors, juniors, friends** and all other loving friends and relatives for their love, moral support and encouragement given to me.

I am grateful to the **Ministry of Tribal Affairs (NF-ST)** for granting me a fellowship during my PhD studies.

I appreciate the **Quality Control Lab** and **SAIC** at TU for providing the necessary facilities to conduct and analyze my research.

I would like to express my gratitude to the **Central Library and Administration** at Tezpur University.

Finally, my special thanks beyond words go to my **family members** for their deep love, patience and unwavering support.

Here I bow my head before all, as words fail in me to disclose my mind to reveal the flood of gratitude in me.

Ultimately, I offer my heartfelt gratitude to **Almighty God** for His divine intervention, blessings, care, and guidance in every aspect of my life, both past and present, and in all future endeavors.

Beatrice Basumatary
