

## CONTENTS

---

<b>Sl. No</b>	<b>Particulars</b>	<b>Page No.</b>
1.	Introduction	1- 4
2.	Review of literature	5- 12
3.	Material and methods	13-20
4.	Results and discussions	21- 42
5.	Summary and conclusions	43 - 44
6.	Bibliography	45- 52

## LIST OF TABLES

<b>Table No.</b>	<b>Title</b>	<b>Page no.</b>
4.1.1	Chemical composition of native and chemically modified taro starches	21
4.1.2	Moisture, amylose content and yield of chemically modified taro starches	22
4.2.1	Solubility of native and chemically modified taro starches	24
4.2.2	Swelling power of native and chemically modified taro starches	25
4.2.3	Paste clarity of native and chemically modified taro starches	27
4.2.4	Freeze-Thaw stability of native and chemically modified taro starches	28
4.2.5	Pasting properties of native and chemically modified taro starches	31
4.2.6	Gel texture of native and chemically modified taro starches	33
4.3.1	% Crystallinity and position of strong and weak peaks in X-ray diffractogram of starch samples of native and modified taro	34
4.3.2	Color of native and chemically modified taro starch powder	37
4.3.3	Color of taro starch paste	38
4.5.1	Texture measurement of soup prepared by using native and chemically modified taro starches	41
4.5.2	Color measurement of soup powder prepared by using native and chemically modified taro starches	42

## LIST OF FIGURES

<b>Fig No.</b>	<b>Title</b>	<b>Page no.</b>
3.1	Taro tubers	13
3.2.1	Flowchart showing the extraction process of taro starch	14
4.2.1	Solubility of native and chemically modified taro starches	24
4.2.2	Swelling power of native and chemically modified taro starches	25
4.2.3	Paste clarity of native and chemically modified taro starches	27
4.2.4	Freeze-thaw stability of native and chemically modified taro starches	29
4.3.1	X-ray diffraction pattern of native (NT) and chemically modified (E1, E2, C1, & C2) taro starches	34
4.3.2	X-ray diffraction pattern of dual chemical modified (E1C1, E1C2, E2C1 & E2C2) taro starches	35
4.3.3	X-ray diffraction pattern of dual chemical modified (C1E1, C1E2, C2E1 & C2E2) taro starches	35
4.3.4	FT-IR spectral profile of native and chemically modified taro starches	36
4.4.1	Scanning electron micrographs (4,000X) of starch granules of native (NT) and modified (E1, E2, C1, C2, E1C1, E1C2, E2C1, E2C2, C1E1, C1E2, C2E1, C2E2) taro starches	39
