CHAPTER NO.	TITLE OF THE CHAPTER	PAGE NO.
I	INTRODUCTION	1-4
II	REVIEW OF LITERATURE	5-20
III	MATERIALS AND METHODS	21-36
IV	RESULTS AND DISCUSSION	37-61
V	SUMMARY AND CONCLUSION	62-64
	BIBLIOGRAPHY	65-75

LIST OF TABLES

Table No.	Title	Page No.
4.1	Moisture, Ash and Crude fiber content of whole grains of green gram and black gram under various processing treatments	38
4.2	Protein, Fat and Starch content of whole grains of green gram and black gram under various processing treatments	45
4.3	Reducing sugar, Non-reducing sugar and Vitamin-C content of whole grains of Green gram and Black gram under various processing treatments	51
4.4	Trypsin inhibitor content, Phytic acid and Tannin content of whole grains of green gram and black gram under various processing treatments	55

LIST OF FIGURES

Figure No.	Title	Page No.
4.1	Changes in moisture content of seeds under various processing treatments	40
4.2	Changes in ash content of seeds under various processing treatments	42
4.3	Changes in crude fiber content of seeds under various processing treatments	43
4.4	Changes in protein content of seeds under various processing treatments	44
4.5	Changes in fat content of seeds under various processing treatments	48
4.6	Changes in starch content of seeds under various processing treatments	49
4.7	Changes in reducing sugar content of seeds under various processing treatments	52
4.8	Changes in non-reducing sugar content of seeds under various processing treatments	53
4.9	Changes in vitamin C content of seeds under various processing treatments	54
4.10	Changes in trypsin inhibitor content of seeds under various processing treatments	56
4.11	Changes in phytic acid content of seeds under various processing treatments	58
4.12	Changes in tannin content of seeds under various processing treatments	60

LIST OF PLATES

Plate No.	Title	Page No.
3.1	Matured seeds of green gram cultivar, SGC-20	22
3.2	Matured seeds of green gram cultivar, SGC-16	22
3.3	Matured seeds of black gram cultivar, SBC-40	23
3.4	Matured seeds of black gram cultivar, SBC-47	23
