

In The Interior

Certificate.....	iii
Acknowledgement.....	iv
Abstract.....	v
1.0 Introduction.....	1-4
1.1 Role of catalyst in organic synthesis.....	4-5
1.2 VO(acac) ₂ as oxidation catalyst.....	5-8
1.3 Literatu rereview.....	8-12
1.4 Aim and Objectives.....	13
1.5 Plan of Work.....	14
2.0 Experimental Section	
2.1. Genaral Information.....	14
2.2. Experimental Procedure for the Synthesis of acid.....	14
2.3. Preparation of the catalyst.....	14-15
2.4. Characterisation methods.....	15-18
2.5. Determination of rate and order of a reaction.....	18-19
3.0 Result and Discussion.....	20-23
3. 1. Van't Hoff differential method.....	23-25
3.2. Proposed Mechanism.....	25-26
3.4 Characterization of the prepared Compounds.....	26-27
4.0 Conclusion.....	28
4.1 Future scope of present work.....	29
5.0 References	31-32
