ACKNOWLEDGEMENTS

It is my foremost duty to express my heartiest thanks and deep sense of indebtedness to my supervisor Sadhan Mahapatra, Assistant Professor, Department of Energy, Tezpur University, for his utmost help and able guidance in all stages of this work. His sound guidance has taught me the rudiments of the subject, helped me overcome challenges and defend the results in the best possible way. The most important aspect that I have learnt from my interactions with him is the technique of conducting a successful research in a time-bound frame. I am deeply grateful to him and look forward to continue his guidance in future.

I take immense pleasure in thanking Dr. Manoj Kumar Singh, Post Doctoral fellow, University of Liege, Belgium for devoting his precious time in guiding me throughout the project work. His invaluable suggestions and the most generous support offered in times of need helped in the fruitful culmination of this work.

I would like to offer my warm regards and sincere thanks to the other faculty members of the Department of Energy, viz., Prof D.C Baruah, Prof. S.K. Samdarshi, Prof. D. Deka, Dr. R. Kataki, and Mr. P.K. Choudhury for their invaluable teachings and kind guidance during the entire M.Tech. Programme. I would like to unfailingly acknowledge the valuable suggestions, help and assistance of Mr. Tapanjit Bora and Mr. Troilokya Lahon of the Department of Energy.

The support of the staff, senior colleagues, juniors and of course, all my batch mates of the Department of Energy has made my work a lot easier and comfortable. I heartily acknowledge them for their valuable presence and interactions. Also, I like to thank the participants in my survey, who have willingly shared their precious time during the process of interviewing.

Last, but not the least, I thank The Almighty, my parents and my sister for being there for me always.
