

Contents

1. Introduction	2
1.1 Peer to Peer Networks	2
1.1.1 Overview of Peer-to-Peer Networks	2
1.1.2 Categories of Peer-to-Peer Applications	3
1.1.3 Architectures of Peer-to-Peer File Sharing Systems	5
1.2 Motivation and Objective	6
1.3 Problem Definition	7
2. Literature Survey	8
2.1 Background Study	8
2.1.1 Bit Torrent Protocol Overview	8
2.1.2 Bit Torrent Protocol Architecture	8
2.1.3 The Tracker Protocol	11
2.1.4 Bit Torrent Peer Wire Protocol	11
2.1.5 Piece Selection Policy	13
2.1.6 Peer Selection Policy	14
2.2 Related Works	17
3. Proposed System	20
3.1 Problem Analysis	20
3.2 Proposed Approach and Design	23
3.2.1 Frame Work	23
3.2.2 Flowchart of the Proposed Choking Algorithm	25
3.2.3 Proposed Choking Algorithm	27
3.2.4 Threshold Estimation	30
4. Experimentations	31
4.1 Experimentations Platform	31
4.2 Road-Map of Experiments	31
4.3 Performance Metrics	32
4.4 Simulation Results	32
4.4.1 Threshold Estimation	32
4.4.2 Performance Analysis	36
5. Conclusion and Future works	42
