

Contents

Chapter 1

1.2 Introduction-----	1
1.3 The Knowledge Discovery Process-----	1
1.1 Data Mining Concepts-----	1
1.4 Applications of Data Mining-----	1
1.5 Organisation of the report-----	2

Chapter 2

2.1 Association Rule Mining-----	3
2.2 The algorithms proposed to implement the first step of the mining process-----	3
2.2.1 With Candidate Generation-----	3
2.2.1.1 Apriori algorithm-----	4
2.2.1.2 Limitations-----	5
2.2.2 Without Candidate Generation-----	6
2.2.2.1 FP-growth algorithm-----	6
2.2.2.2 FP-Tree size-----	8
2.2.2.3 Limitations-----	9

Chapter 3

3.1 Challenges due to limited physical memory-----	10
3.2.1 DRFP-tree: disk-resident frequent pattern tree-----	10
3.2.1 Limitations-----	13

Chapter 4

4.1 Work done-----	14
4.1.1 Construction of FP-tree-----	14
4.1.2 Storing the constructed FP-tree in the secondary memory-----	18
4.1.3 Restoring the FP-tree from secondary memory to main memory-----	19

Chapter 5

5.1 Results-----	20
------------------	----

Chapter 6

6.1 Conclusion-----	23
6.2 Future work-----	23

Bibliography-----	24
-------------------	----
