ACKNOWLEDGEMENT

I express my deep and sincere gratitude to **Mr. Debojit Boro**, Assistant Professor, Department of Computer Science and Engineering, Tezpur University, Tezpur, who has been my supervisor since the beginning of this study as well as the project. This study had been far beyond completion without his exquisite support. I am greatly indebted for his valuable, constructive and critical guidance throughout the tenure of this project.

I sincerely thank to **Dr. Dhruva Kumar Bhattacharya**, Professor, Department of Computer Science and Engineering for his guidance which was invaluable throughout my work. I really could not have done it without him.

I would also like to express my solemnized gratitude and thanks to all my friends who had been by my side and pouring their valuable advice and encouragement. I am also thankful to them for their help in carrying the survey and implementation and as well as in every step of the project.

I wish to thank my parents for their undivided support and interest who inspired me and encouraged me to go my own way, without whom I would be unable to complete my project. At last but not the least I want to thank my classmates and friends who appreciated me for my work and motivated me and finally to God who made all the things possible.
