ACKNOWLEDGEMENT

I would like to thank my guide Dr. D.K.Bhattacharyya, Professor, Department of Computer Science and Engineering for his continuous support and encouraging guidance. His valuable suggestions went a long way in the smooth working of this project. Carrying out a project single handedly would have been tough if he would not have inspired me to do my best whenever I met him. I am sincerely thankful to him for listening patiently to me and for sparing time for me whenever I need, in spite of his busy schedule. I am also obliged to Mrs. Rosy Sarmah, my co-guide for her friendly co-operation in the enhancement of this work. I cannot imagine writing a report of this volume without their help. I consider myself extremely lucky to work under their guidance. I would also like to take the pleasure of thanking our Head of Department, Dr. Utpal Sharma for his co-ordination in all matters. I thank my parents and all my friends for providing me inspiration and confidence to carry out my work.
