### ACKNOWLEDGMENT

First and foremost, we are deeply indebted to my mentor Prof. Dhruva K Bhattacharyya who inspiration has been unfailingly available to me at all stages of our project. This has fueled my enthusiasm even further and encouraged me to boldly step into what was a totally dark and unexplored expanse before me. We would like to thank Research scholar Mr Nazrul Haque for his efforts, who was always ready with a positive comment, whether it was an off-hand comment to encourage me or constructive piece of criticism.

In course of present work it has been my privilege to receive help and assistance of my friends. We take great pleasure in acknowledge my debt to them.
