## DECLARATION

We herewith declare that we have produced this report without the prohibited assistance of third parties and without making use of aids other than those specified; notions taken over directly or indirectly from other sources have been identified as such. This paper has not previously been presented in identical or similar form to any other examination board. The thesis work was conducted from January, 2012 to May, 2012 under the supervision of Dr. Nityananda Sarma at the Department of Computer Science and Engineering, Tezpur University.

## ACKNOWLEDGEMENT

This project could not have been done without the help of a lot of other people. Without them this experience would definitely not have been as special and gratifying as it was. So, it is our pleasure to have the opportunity to express our thanks to those who have ever helped us.

We would like to thank our supervisor Associate Professor Dr. Nityananda Sarma. We will always be grateful to him for providing us this valuable opportunity to have worked under his guidance, and for his constructive criticism and patience to guide us throughout our project. It has been an excellent opportunity for us and we have learnt a lot from him.

We sincerely thank Mr. Ajay Kr. Sharma, Mr. Arun Chetri and Mr. Raghvendra Choudhary for their assistance which was invaluable throughout our experiments. We really could not have done it without them.

We would also thank our friends, including some special ones, whose help and moral support gave us the confidence of completing the project well.

For those whose names we did not mention here, we offer our sincerest apologies but know that those that have made this experience so special will never be forgotten.

Last but not the least we cannot forget to thank our parents. We could not have been where we are without their prayers, blessings and hard work. This dissertation is dedicated to them.

Deepa Singhanian (CSM09002)

Nabajit Gogoi (CSM09025)
