Acknowledgement

A major project is a golden opportunity for learning and self-development. I consider myself very lucky and honoured to have so many wonderful people lead me through in completion of the project.

My grateful thanks to Rameshchandra Veeturi sir, RinkuHazarika sir and Abhishek KumarGupta, who in spite of being extraordinarily busy with their duties, took time out to hear, guide and keep me on the correct path. I do not know where I could have been without them.

Last but not the least there were so many who shared valuable information that helped in the successful completion of this project.
