Acknowledgement

This dissertation would not have been possible without the guidance and the help of several individuals who in one way or another contributed and extended their valuable assistance in the preparation and completion of this study. So it's our pleasure to take this opportunity to thank them all.

First and foremost we would like to express our sincere gratitude to our project guide Professor Dhruba K Bhattacharyya, who has supported us throughout our project with his patience and knowledge whilst allowing us the room to work in our own way. He has always been encouraging and enthusiastic and it has been a genuine pleasure working with him.

We are thankful to all the teachers and staff of Tezpur University for giving us the opportunity to pursue our Master degree in such a strong academic environment like TU and second for their efforts during our study along these three years to make our journey easy and enjoyable for us as students.

Further, we would like to thank all our classmates and friends for their help and mental support during this period.

Last but not the least, our families for their constant support, love and being there for us at our good and bad times cheering us up; And also the one above all of us, the omnipresent God, for answering our prayers for giving us the strength to plod on despite our constitution wanting to give up and throw in the towel, thank you so much Dear Lord.

Magida A. Ahmed
