
1. Introduction.....	4
1.1 Motivation.....	5
1.2 Overview.....	5
1.3 Coverage holes in WSN.....	6
1.4 Problem definition.....	7
2. Related work.....	7
2.1 Hole detection and hole size estimation.....	7
2.2 Destination selection.....	9
2.3 Triangulation oriented diagram.....	10
2.4 Destination selection.....	20
3. Work Done.....	22
3.1 Implementation.....	25
3.2 Relocate sensors node to cover hole.....	27
4. Future Work.....	29
5 Conclusions.....	29

List of Figure

Page Number

1. Coverage hole.....	6
2. Using Voronoi diagram to detect a coverage hole and decide the hole size.....	9
3. Initial deployment.....	11
4. Contraction the triangulation oriented diagram.....	12
5. The 3 possible sates with 3 sensors.....	13
6. Intersection between two circle.....	15
7. Contraction of the circumcircle and the circumcenter.....	20
8. Contraction of the incircle.....	21
9. The 3 possible sates with 3 sensors presence of obstacle.....	22
10. Using Delaunay triangulation detect coverage hole and hole size.....	26
11. Maximum coverage by minimum sensor.....	28
